# ONE ROUGH-IN DOES IT ALL

Easy to install, easy to upgrade, and easy to maintain. A better universal valve system.

Multiple functions/multiple trims – all designed to fit in one universal rough-in box. GrohFlex provides the groundwork for any shower or tub/shower installation, making complex planning, ordering and installation easy and efficient. And it simplifies rough-in construction – allowing work to proceed, even without final function or trim selection. Plus, integrated service stops and an enhanced flushing system make for fast and easy installation/maintenance.
