

Just the GROHE Facts

Why Grohe?

Limited Lifetime Warranty on parts and finish for every residential collection

Collections in every style, including contemporary, transitional, and traditional

Price points for every project

Eco models available

Designed and engineered ergonomically for ease of use, durability, and beauty

Design

- Grohe's design philosophy is to integrate aesthetics, performance, easy-of-use, and quality.
- Grohe's finish options include Chrome, Brushed Nickel, Polished Nickel, Oil-Rubbed Bronze, SuperSteel (stainless steel finish), and RealSteel (stainless steel casting).
- Grohe offers contemporary, transitional, and traditional collection designs.

GrohFlex

- The GrohFlex is a universal shower valve that can accommodate a number of shower designs from a single axis through the use of 5 trim kit functions.
- Trim kit functions include single function pressure balance, single function thermostat, dual function pressure balance, and dual function thermostat. For the 5th function, GrohFlex also has a 14 GPM high-flow trim kit (requires separate volume control for each outlet).

Grohe Moments of Truth Technologies

- **Grohe EcoJoy™** technology conserves water while maintaining the utility and enjoyment of the faucet.
- **Grohe SilkMove®** keeps the operation of the faucet or shower valve easy and smooth for a lifetime.
- **Grohe Starlight®** keeps Grohe's chrome finish products looking new for the lifetime of the faucet.
- **Grohe DreamSpray®** refers to the intricate engineering that is involved in designing shower heads.
- **Grohe Turbostat®** technology allows Grohe's shower valves to react to changes in water temperature immediately.
- **Grohe CoolTouch®** refers to the channeling in Grohe products to prevent discomfort or scalding for the user.
- **Grohe QuickFix™** installation technology makes Grohe an efficient choice for contractors and plumbers.
- **Grohe Whisper®** technology refers to Grohe's philosophy of designing shower and faucet valves that don't produce additional noise.

Kitchen Products

- Grohe offers complete kitchen suite collections ideal for luxurious and comfortable kitchens, including the industry's largest CalGreen compliant offering.

Warranty

- Grohe offers a limited lifetime warranty to the original purchaser against all finish or mechanical defects.

Every Day Grohe

- Every Day Grohe refers to collections priced for budget projects, second baths, or large projects.
- These Every Day collections have the same technology, quality, and warranty as Grohe's other collections.
- Grohe reduces production cost by simplifying designs, options, and finishes.

Rapid SL In-Wall Carrier

- Fits all residential wall-hung bowls.
- Features the Grohe Whisper technology.
- Easy maintenance through removable actuator flush panel.
