

Just the Steamist Facts

Why Steamist?

Lifetime Warranty on all residential generators

Collection flexibility to suit the client's needs

Collections for every price range

Innovative technology for full in-home spa experience

Website pricing and sizing guide

Total Sense Collection Generators and Controls

- The Total Sense Collection generator features the latest in luxury home spa technology.
- It includes EvenSteam (which provides continuous steam at a steady temperature for a quieter and more comfortable experience) and Instamist (which accelerates steam output from the generator).
- The TSC-350 control operates steam functionality and all Total Senses. For simple Total Sense steam functionality (EvenSteam & Instamist, but not the Senses), the TSC-250/TS-C250T control can be used.
- All controls can be used in conjunction with the TSR on/off remote or TSC on/off control.

Total Senses

- Aroma Sense feature allows the user to choose between two different aromas right from the steam shower controller.
- Chroma Sense features different color lights that create certain moods and energy.
- Audio Sense allows the choice of 3 audio sources (such as an iPod) and a choice of two speaker package options, including exposed and concealed.

STEAMIST®

SM Collection Generator and Controls

- Steamist's SM Collection steam generators offer the fundamental level of the spa experience: simple, effective steam.
- Models include the **SM-5, SM-7, SM-9, SM-11, SM-12, and SM-15**, and vary only in how much steam output each produces.
- The SM Collection offers two controls, the SMC-150 (off/on function, timer, and temperature control) and the SMC-120 (an on/off function) for outside of the steam enclosure.

Benefits of steam

- Improved complexion through moisture and cleansing from the inside-out.
- Increased blood flow caused by the rise in body temperature reduces muscle aches and removes toxins from the liver.
- The inhalation of moist, warm air can relieve some respiratory ailments.

Website sizing/pricing

- Steamist offers a very user-friendly steam generator sizing guide on the website, www.steamist.com.
- Similarly, Steamist offers an online list pricing aid: to help keep track of possible options.

Steam Bath Accessories

- The Steamist steam head features a low-profile look, 360° steam dispersion, and an essential oil reservoir.
- Steamist offers an optional auto drain on all generator models.
- Seats: a contemporary fold down seat available in white or almond finish and a teak tilt-up seat.

Commercial Generators

- Steamist also offers generators for gyms, hotels, and spas.

Saunas

- For clients that prefer dry heat, Steamist offers complete sauna packages as well, including pre-fabricated cedar rooms.

Warranty Information

- Steamist offers a limited lifetime warranty on all residential Steamist generators. Commercial generators are 1 year.
