

ONE SHOWER SYSTEM LETS YOU HAVE IT ALL

- **Define your style.** Choose from GrohFlex Authentic, Timeless, or Cosmopolitan design styles to coordinate with the wide range of GROHE faucets and shower products.
- **Start your project now.** With GrohFlex, final design decisions can be made later in the construction process after you've chosen fixtures, tile, and colors.
- **Save time and money.** Multiple shower installation options are made possible with one universal, in-wall rough-in solution.
- **Times change, styles change.** With GrohFlex, you can switch styles, (Authentic, Timless, or Cosmopolitan) without the expense of new piping or tile.
- **Easy to upgrade.** As your home changes with the addition of children or older family members, GrohFlex allows you to easily, upgrade your shower from pressure balancing technology to thermostatic safety valve technology without breaking into expensive tile or stone.
- **Quick and simple maintenance.** Avoid expensive shower wall repairs.

GrohFlex™
the smart bathroom solution
that saves both
time and money

Adapt and thrive
