

shower systems

at-a-glance

Welcome to MTI Whirlpools, where you will find fresh ideas, award-winning designs, innovation and customization.

Recognized for products of the highest quality and providing outstanding customer service and support, MTI manufactures individual products when ordered, and yet remarkably ships within 7 business days, the fastest in the industry.

MTI's large selection of shower bases and elegant enclosures will flatter and distinguish your bathroom. All products are characterized by strong design and high quality, while the assortment of base sizes, shapes and drain locations provides solutions for new construction and remodeling situations alike.

MTI's selection of shower bases is constantly expanding to meet the needs of both residential and commercial applications. The most recently added models feature multiple thresholds for flexible installation and a very low profile of approximately 3" for easier shower entrance and exit. Additionally, the low profile permits recessing the base in the floor so that, when combined with a teak shower tray, a zero-barrier entrance is created.

Beyond shower bases and enclosures, MTI offers an extensive range of tubs, sinks, bath furniture and specialty products. Add to this a full complement of options and hydrotherapy choices, and it becomes evident why MTI alone enables you to completely "Design Your Experience".

Visit mtiwhirlpools.com for the newest products, most current and comprehensive information, specifications and retail pricing.

Standard Features and Construction / Acrylic Bases

- Lucite® cross-linked cast acrylic construction, strengthened by a substantial multi-layered backing to prevent flexing of the floor pan.
- At least 30% thicker and stronger than other makes.
- Surface is extremely scratch- and stain-resistant.
- Non-porous surface makes cleaning and sanitizing faster and more effective.
- Available in a wide variety of colors.
- Single and multiple-threshold models available, some with hidden drain (designated by "HD").
- Tile flange(s) included to facilitate installation.
- Pre-leveled (optional foam base may be ordered to eliminate the need for bedding compound).
- Textured bottom meets ASTM F-462-1994 for slip-resistance.
- Quality tested and certified by the NAHB.

Cutaway of acrylic shower base.

Standard Features and Construction / Engineered Solid-Surface Bases

- Constructed of Engineered Solid-Surface ("ESS") composite material, which is a mixture of ground natural minerals and high-performance resins that are liquefied, poured and then hardened. This "molded stone" is solid through-and-through.
- Non-porous surface is stain-resistant, mold and mildew-resistant.
- Available in white or biscuit, matte finish.
- All are multiple-threshold design with hidden drain (designated by "HD").
- Tile flange(s) included to facilitate installation.
- Pre-leveled and include foam base, eliminating the need for bedding compound.
- Quality tested and certified by the NAHB.

Solid-surface shower base with hidden drain cover removed.

Standard Features and Construction / Nordic Series Enclosures

- Frameless design for clean appearance.
- 10 mm-thick clear tempered safety glass (curved glass is 6 mm).
- Hinges and handles are made of solid cast brass.
- Available in chrome and brushed nickel; some models in polished nickel and oil rubbed bronze.
- Hinges attach *through* the glass for long-term proper alignment.
- For easy installation, wall jambs allow for +/- 3/4" adjustment in the width for both sides to compensate for variances due to tile thickness or walls that are out of plumb.

Adjustable wall jamb.

Hinge styles available.

Standard Features and Construction / Teutonic Series Enclosures

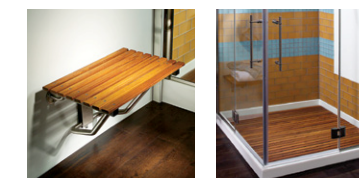

- Frameless design.
- 12 mm-thick clear tempered safety glass.
- Solid stainless steel hardware in natural or high-polished finish.
- Rugged, industrial-looking rollers glide along a rock-solid stainless steel track.
- Precision-machined hardware allows the 200-pound door to slide effortlessly.

Teutonic Series solid stainless steel hardware.

Standard Features and Construction / Genuine Teak Accessories

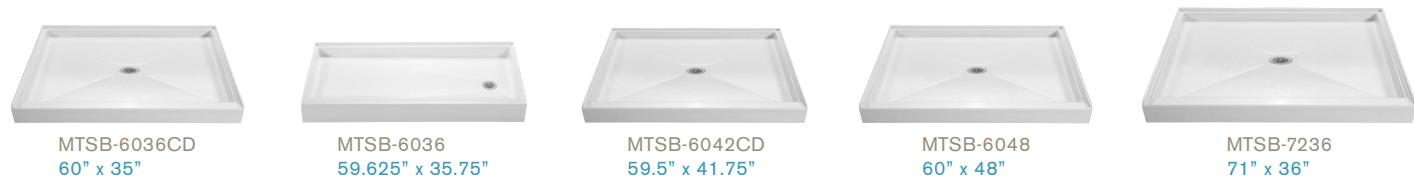

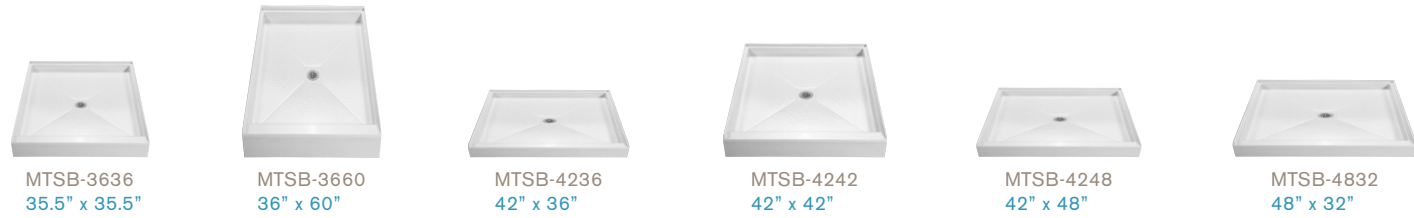

- Genuine teak has the natural ability to ward off fungi, mold and mildew.
- Emits a slight teak aroma while showering.
- Helps contribute toward creating a spa-like environment.
- Variety of teak shower seats and trays available.

Genuine teak shower seats can be installed inside or outside the shower and fold up when not in use. Teak shower tray is comfortable under foot. Slats let water and soap run through.
