

## New Product Spotlight

# TSG-15 Generator

## Total Sense Collection

Reminder: this summer, Steamist added a new, larger size to the Total Sense generator collection, now with a maximum cubic foot range of 675.

As always, the new TSG-15 can be "ganged" with another Total Sense generator for even larger rooms.

---

## Total Sense Generator features

- Can be installed with one or more Total Sense Collection Spa Options.
- Four models cover all steambath sizes – multiple generators are easily "gangable."
- Quiet, continuous Even Steam output.
- Selectable InstaMist feature provides quick response steam in seconds.
- Proportional controlled steam modulated to precise steam shower requirements.
- Auto Drain designed to work with InstaMist feature – can be purchased individually or as part of TSG Control Package.
