

ONLY STEAMIST PUTS YOUR  
COMFORT ON CRUISE CONTROL

**Total Sense™**

with SteadySteam™ Technology

**STEAMIST®**  
RELAX. RESTORE. RENEW.

# UNLOCK THE JOY OF STEAM

Your steam shower is a special place to relax, restore and renew body and mind. The key to maximizing the positive effects of steam is to maintain an environment that is always within a few degrees of your “setpoint” — your most comfortable steambathing temperature. With Steamist’s Total Sense™ the most complete and satisfying home spa experience awaits you.

# STEADYSTEAM™ — A SOLUTION THAT MAKES TOTAL SENSE.

Your body is very sensitive to temperature changes, so fluctuations of more than a few degrees from your setpoint will make your steam experience less enjoyable. With other manufacturers' systems, temperatures will rise and fall numerous times during a steam session, which means you won't stay comfortable. With Steamist, our **Total Sense™ Steam Generator and TSC-450 Digital Control combine to deliver the consistent comfort of SteadySteam™.** Once the Total Sense system reaches your setpoint, the temperature will cruise consistently within your comfort zone.

# SUPERIOR TECHNOLOGY

## MODULATING STEAM GENERATOR

The Total Sense™ Steam Generator is the heart of your steam shower experience. Steamist's **modulating design enables precise adjustments** to steam output resulting in a consistent steam shower temperature. Proportional output delivers just the right amount of steam needed to maintain temperature and avoid temperature spikes. Some steam generators without proportional output can only operate at 100% full power, and throughout each steam session they turn on and off numerous times, putting out uncomfortable blasts of steam.

## DUAL-SENSOR TECHNOLOGY (PATENT PENDING)

Any steambath control is only as good as its ability to accurately read the actual room temperature. Steamist has taken this technology to a new level with dual sensor technology. Most steambath controls have one sensor sealed inside a waterproof control, and cannot accurately and quickly detect temperature changes inside the steam shower. Only Steamist's TSC-450 Digital Control has **dual temperature sensors**, so it can provide **accurate real-time temperature readings** to help smoothly regulate steambath temperature.

## ONLY FROM STEAMIST— TOTAL SENSE™ OPTIONS

Steamist offers you a choice of four **Total Sense Spa Options**, for the ultimate home spa experience. It also lets you program **two separate User Profiles for steam** and **two for shower settings**. And, for **each** User Profile you can program individual preferences for all your selected features and options, not just time and temperature. With a single touch of a button, your steam shower and all the spa features are operating just the way you want them.

### TSC-450 DESIGN OPTIONS

Select from a Contemporary or Traditional design, with finish choices including: Polished Chrome, Polished Nickel, Brushed Nickel, Polished 24K Gold, Oil-Rubbed Bronze and Brushed Bronze.

Traditional

Contemporary

### AROMASENSE™ SPA OPTION

Only AromaSense meters pure undiluted fragrant essential oils into the steam shower. It lets you select from two essential oil experiences, and make adjustments to the intensity of the aroma output so you can enjoy a little bit more or less each time.

### CHROMASENSE™ SPA OPTION

High-powered recessed LED light allows you to select from six different colors or white light to adjust the attitude of your visual senses. Only ChromaSense gives you white light output equivalent to 50 watts of incandescent light.

### AUDIOSENSE™ SPA OPTION

Enjoy steam plus music from any Bluetooth-enabled source. Only AudioSense offers you a choice of "Classic" exposed speakers or "Invisible" speakers that mount behind the wall. Plus, your two User Profiles can be programmed for different sources, or to play music only when you're taking a shower.

### SHOWERSENSE™ SPA OPTION

Select from two pre-programmed shower temperatures, and enjoy the shower experience you want through three different outlets. Only ShowerSense uses the TSC-450 to control all steam and shower functions, without the clutter of multiple shower controls.

**Precautionary Warning Prior to Purchase** – Before using a steambath, please consult with your physician. If you are an elderly person, or pregnant woman, or suffering from heart disease, high blood pressure, diabetes, or not in good health, you should not use this device unless otherwise directed by your physician. If you have any other condition that requires the use of medication or drugs, it is also necessary to check with your doctor before steambathing. Avoid direct contact with the steam coming out of the steamhead and with the steamhead itself, as this could cause serious burns or physical injury. For additional information about the steam product and important safety issues, please visit our website at [www.steamist.com](http://www.steamist.com) or call us at 800-577-6478.
